1. For the purposes of this Agreement, a product shall be considered as originating in a Party if:
(a) it has been wholly obtained in that Party, in accordance with Article 3 (Wholly Obtained Products);

## Article 4

## Sufficient Working or Processing

1. Without prejudice to Article 5 (Insufficient Working or Processing), a product listed in Appendix 1 (Product Specific Rules) shall be considered to have undergone sufficient working or processing if the product specific rules of that Appendix are fulfilled.
2. If a product, which has acquired originating status in accordance with paragraph 1 in a Party, is further processed in that Party and used as material in the manufacture of another product, no account shall be taken of the non-originating components of that material.
3. Where a rule set out in Appendix 1 (Product Specific Rules) is based on compliance with a sufficient processing threshold or a maximum content of nonoriginating materials, the value of non-originating materials may be calculated on an average basis over a period of three months in order to take into account the fluctuations in costs or currency rates, subject to the domestic requirements of the exporting Party.
4. Notwithstanding paragraph 1, non-originating materials do not have to fulfil the conditions set out in Appendix 1 (Product Specific Rules) to be considered to have undergone sufficient working or processing, provided that:
(a) their total value does not exceed $20 \%$ of the ex-works price of the product; and
(b) no maximum value of non-originating materials set out in Appendix 1 (Product Specific Rules) is exceeded through the application of this paragraph.

## Article 5

## Insufficient Working or Processing

1. Notwithstanding Article 4 (Sufficient Working or Processing), the following operations shall be considered insufficient to confer originating status:
(a) preserving operations to ensure that a product remains in good condition during transport and storage;
(b) freezing or thawing;
(c) packaging and re-packaging;
(d) washing, cleaning, removal of dust, oxide, oil, paint or other coverings;
(e) ironing or pressing of textiles;
(f) simple painting and polishing;

(o) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
(p) slaughter of animals; or
(q) a combination of two or more operations specified in subparagraphs (a) to (p).
2. For the purposes of paragraph 1 , "simple" describes activities which require neither special skills nor machines, apparatus or equipment especially produced or installed to carry out the activity.
3. All operations carried out in a Party on a given product shall be taken into account when determining whether the working or processing undergone by that product is considered as insufficient working or processing referred to in paragraph 1.

## Article 6

## Accumulation of Origin

1. Without prejudice to Article 2 (General Requirements), a product originating in a Party, which is used as material in the manufacture of a product in another Party, shall be considered as originating in the Party where the last operations beyond those referred to in paragraph 1 of Article 5 (Insufficient Working or Processing) have been carried out.
2. A product originating in a Party, which is exported from one Party to another and does not undergo working or processing beyond those referred to in paragraph 1 of Article 5 (Insufficient Working or Processing), shall retain its origin.
3. Where materials originating in two or more Parties are used in the manufacture of a product and these materials have not undergone any working or processing beyond the operations referred to in Article 5 (Insufficient Working or Processing), the origin of the product is determined by the material with the highest customs value, or if this cannot be ascertained, with the highest first ascertainable price paid for that material in that Party.

## Article 7

## Unit of Qualification

1. For the purpose of determining the originating status, the unit of qualification of a product or material shall be determined in accordance with the Harmonized System.
2. Pursuant to paragraph 1:
(a) packaging shall be included with the product if it is included with that product in accordance with General Interpretative Rule 5 of the Harmonized System;
(b) where a set of articles, in accordance with General Interpretative Rule 3 of the Harmonized System, is classified under a single heading, it shall constitute the unit of qualification; and
(c) where a consignment consists of a number of identical products classified under a single heading or subheading of the Harmonized System, each product shall be considered separately.
3. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in its ex-works price, or which are not separately invoiced, shall be considered as part of the product in question.

## Article 8

## Neutral Elements

Neutral elements, which have not entered into the final composition of the product, such as energy and fuel, plant and equipment, or machines and tools, shall not be taken into account when the origin of that product is determined.

## Article 9

## Accounting Segregation

1. If originating and non-originating fungible materials are used in the working or processing of a product, the determination of whether the materials used are originating may be determined on the basis of an inventory management system, subject to prior authorisation.
2. For the purposes of paragraph 1, "fungible materials" means materials that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another once they are incorporated into the finished product.
3. The inventory management system shall be based on generally accepted accounting principles applicable in the Party where the product is manufactured and ensure that no more final products receive originating status than would have been the case if the materials had been physically segregated.
4. A producer using an inventory management system shall keep records of the operation of the system that are necessary for the customs administration of the Party concerned to verify compliance with the provisions of this Annex.
5. The authorisation to use accounting segregation may be withdrawn if the producer makes improper use of it.

## SECTION II

## TERRITORIAL REQUIREMENTS

## Article 10

## Principle of Territoriality

1. The conditions for acquiring originating status set out in the provisions of Section I (General Provisions) must be fulfilled without any interruption in the territory of a Party.
2. If an originating product is returned to the exporting Party after having been exported to a non-party without having undergone any operation there, beyond those necessary to preserve it in good condition, that product shall retain its origin.
3. Notwithstanding paragraph 1 , the acquisition of originating status of a product in accordance with the provisions of Section I (General Provisions) shall not be affected by operations carried out in a non-party, under an outward processing procedure or a similar arrangement, if:
(a) the re-imported product has been obtained from the exported materials;
(b) the total added value acquired in the non-party does not exceed $20 \%$ of the ex-works price of the product; and
(c) taken together, the total value of the non-originating materials incorporated in the Party and the total added value acquired outside the Party concerned does, not exceed the value allowed in accordance with Appendix 1 (Product Specific Rules).
4. For the purposes of subparagraph 3 (b), "total added value" means all costs arising outside the Party concerned, including transport costs and the value of materials incorporated there.

## Article 11

## Direct Transport

1. Preferential treatment in accordance with the Agreement shall only be granted to originating goods that are transported directly between the Parties.
2. Notwithstanding paragraph 1 , originating goods may be transported through territories of non-parties, provided that they:
(a) do not undergo operations other than unloading, reloading, splitting-up of consignments or any operation designed to preserve it in good condition; and
(b) remain under customs control in those non-parties.
3. It is understood that originating goods may be transported by pipeline across territories of non-parties.
4. Upon request, an importer shall supply appropriate evidence to the customs authorities of the importing Party that the conditions set out in paragraph 2 have been fulfilled.

## SECTION III

## PROOF OF ORIGIN

## ARTICLE 12

## Origin Declaration

1. For goods originating in a Party and otherwise fulfilling the requirements of this Annex, an origin declaration may be completed by an exporter established in a Party. While recognising that the Indonesian system requires information pertaining to the origin criteria, the origin declaration as set out in Appendix 2 (Origin Declaration) shall be the basis for granting preferential treatment under the Agreement.
2. The origin declaration must be completed on an invoice or any other commercial document that identifies the exporter and the originating goods, and, except as provided in Article 14 (Approved Exporter), bear the original signature of the exporter.
3. An origin declaration shall be valid for 12 months from the date of completion.

## Article 13

## Representation

1. Subject to the domestic requirements of the exporting Party, forwarding agents, customs brokers and other persons have to be entitled in writing by the exporter of the product to complete origin declarations.
2. The representative must submit his title of representation to the competent authorities of the exporting Party, upon their request.

## Article 14

## Approved Exporter

1. The competent authorities of the exporting Party may, subject to domestic requirements, authorise an exporter of that Party to complete origin declarations without signing them, provided that he submits a written undertaking to those competent authorities, stating that he accepts full responsibility for any origin declaration which identifies him, as if he had signed it.
2. An exporter who requests such authorisation must offer to the satisfaction of the competent authorities of the exporting Party all guarantees necessary to verify the originating status of the goods as well as the fulfilment of the other requirements of this Annex.
3. The competent authorities of the exporting Party shall provide an approved exporter of that Party with an authorisation number. The authorisation number must be included in the origin declaration instead of the signature.
4. The competent authorities of the exporting Party may verify the proper use of an authorisation and withdraw it if the exporter no longer meets the conditions referred to in paragraph 2 or otherwise makes improper use of it.

## SECTION IV

## PREFERENTIAL TREATMENT

## Article 15

## Importation Requirements

1. A Party shall grant preferential tariff treatment in accordance with this Agreement to originating products imported from another Party, on the basis of an origin declaration referred to in Article 12 (Origin Declaration).
2. In order to obtain preferential tariff treatment, the importer must, in accordance with the procedures applicable in the Party of import, request preferential tariff treatment at the time of importation of an originating product.
3. Subject to the domestic laws and regulations of the importing Party, an importer who is not in possession of an origin declaration at the time of importation may present the origin declaration and, if required, other documentation relating to the importation, at a later stage.
4. An origin declaration shall be submitted to the customs authorities of the importing Party within 12 months from its completion. The expiration of this period may be suspended as long as the goods covered by that origin declaration remain under customs control of the importing Party. After this period, an origin declaration may be accepted only in exceptional circumstances.

## Article 16

## Exemption from Origin Declarations

Notwithstanding Article 15 (Importation Requirements), a Party may, in accordance with its domestic laws and regulations, waive the requirements to request preferential tariff treatment on the basis of an origin declaration and grant preferential tariff treatment to non-commercial low value shipments of originating goods and originating goods for personal use forming part of the personal luggage of a traveller.

## Article 17

## Denial of Preferential Treatment

1. The importing Party may deny preferential tariff treatment or recover unpaid customs duties in accordance with its domestic laws and regulations where a product does not meet the requirements of this Annex or where the importer or exporter fails to demonstrate compliance with the relevant requirements.
2. Slight discrepancies between the statements made in the origin declaration and those made in other documents submitted to the customs office for customs clearance or obvious formal errors, such as typing errors in an origin declaration, shall not as such render the origin declaration invalid.

## SECTION V <br> OBLIGATIONS OF IMPORTERS AND EXPORTERS

## Article 18

## Cooperation of Exporters and Importers with Competent Authorities

Exporters and importers benefitting from the Agreement must, within the framework of this Annex and subject to the domestic laws and regulations of the Party where they are established, cooperate with the competent authorities of that Party.

## Article 19

## Documentary Evidence

1. An exporter who has completed an origin declaration according to Article 12 (Origin Declaration), must keep a hard copy of the origin declaration and all documents supporting the originating status of the product, for three years from the date of completion, or longer if required by the domestic laws and regulations of the exporting Party. An approved exporter may keep an electronic version instead of a hard copy of these documents.
2. For the purposes of paragraph 1, "documents supporting the originating status" include, inter alia:
(a) direct evidence of the processes carried out by the exporter, producer or supplier to obtain the product, contained, for example, in his accounts or internal bookkeeping;
(b) documents proving the originating status of materials, used or issued in a Party in accordance with its domestic laws and regulations;
(c) documents proving the working or processing of materials in a Party, issued in that Party in accordance with its domestic laws and regulations;
(d) origin declarations proving the originating status of materials used or issued in a Party in accordance with this Annex;
(e) evidence concerning working or processing undergone outside the Parties by application of Article 10 (Principle of Territoriality), proving the fulfilment of the requirements of that Article.
3. The competent authority of the exporting Party may, at any time, carry out inspections and verify the accounts of exporters who have completed an origin declaration or producers who have contributed to origin conferring processes. Upon request of those authorities, these exporters or producers must submit the documents referred to in paragraphs 1 and 2.
4. In accordance with the domestic laws and regulations of the importing Party, an importer who has been granted preferential tariff treatment must keep the origin declaration, based on which preferential treatment was granted, and all documents supporting the originating status of the product, for at least three years. Upon request of the customs authorities of the importing Party, the importer must submit the documents to those authorities.

## Article 20

## Incorrect Information

When becoming aware of or having reason to believe that an origin declaration contains incorrect information affecting the originating status of a product covered by that origin declaration:
(a) an exporter must immediately notify the importer and the competent authorities of the exporting Party;
(b) an importer must immediately notify the customs authorities of the importing Party.

## SECTION VI

## ADMINISTRATIVE COOPERATION

## Article 21

## Notifications and Cooperation

1. The Parties shall provide each other, through the EFTA Secretariat, with:
(a) the contact details of the competent authorities of the Parties responsible for verifications referred to in Article 22 (Verification of Origin Declarations) and other issues related to the implementation or application of this Annex;
(b) information on authorisation numbers allocated to approved exporters, pursuant to Article 14 (Approved Exporter); and
(c) information on the interpretation, application and administration of this Annex.
2. The Parties shall endeavour to resolve technical matters related to the implementation or application of this Annex, to the extent possible, through direct consultations between the competent authorities referred to in subparagraph 1 (a) or in the Sub-Committee on Trade in Goods. Disputes that cannot be settled through such consultations shall be submitted to the Joint Committee.

## Article 22

## Verification of Origin Declarations

1. The competent authority of the exporting Party shall carry out verifications of origin declarations on request of the importing Party.
2. The verification request shall specify the reasons for the inquiry. It may address the authenticity of origin declarations, the originating status of the goods concerned or the fulfilment of other requirements of this Annex. It shall include a copy of the origin declaration and, if appropriate, any other document or information giving reason to believe that the origin declaration may be invalid.
3. The customs authorities of the importing Party may, subject to their domestic laws and regulations, suspend preferential tariff treatment to a product covered by an origin declaration until the verification procedure has been finalised.
4. The competent authority of the exporting Party may request evidence, carry out inspections at the exporter's or producer's premises, check the exporter's and the producer's accounts and take other appropriate measures to verify compliance with this Annex.
5. The requesting Party shall be informed of the results and findings of the verification within three months from the date of the verification request. If the requesting Party receives no reply within the time limit mentioned above, or if the reply does not state clearly whether a product is originating or whether the origin declaration is valid, the requesting Party may deny preferential tariff treatment to the consignment covered by the origin declaration in question.
6. The time limit mentioned in paragraph 5 shall, upon request by signed letter, sent by electronic means to the contact point within the said time limit, be extended by three months.

## Article 23

## Confidentiality

Subject to the domestic laws and regulations of each Party, any information which is by nature confidential or which is provided on a confidential basis shall be covered by the obligation of professional secrecy. The Parties' authorities shall not disclose such information without the explicit permission of the person or authority providing it.

## SECTION VII

## FINAL PROVISIONS

## Article 24

## Penalties

Each Party shall provide for criminal, civil or administrative penalties for violations of its domestic laws and regulations related to this Annex.

## Article 25

## Goods in Transit or Storage

The provisions of this Annex may be applied to goods, which, on the date of entry into force of the Agreement, are either in transit or in temporary storage in a customs warehouse or free zone under customs control. For such products, an origin declaration may be completed retrospectively up to four months from the entry into force of the Agreement, provided that the provisions of this Annex, in particular Article 11 (Direct Transport) have been fulfilled.

## APPENDIX 1 TO ANNEX I

## PRODUCT SPECIFIC RULES

## Interpretative Notes

1. The first column of the list of product specific rules set out in this Appendix contains chapters, headings or sub-headings and the second column sets out a description of the product. For each entry in the first two columns, one or two rules are specified in columns 3 and 4 . If the HS code in column 1 is preceded by an "ex", this means that the rules in column 3 or 4 apply only to the part of that chapter or heading described in column 2 . Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, either one may be applied. If no origin rule is set out in column 4, the rule set out in column 3 shall be applied.
2. Pursuant to subparagraph 1 (b) of Article 2 (General Requirements) of Annex I (Rules of Origin and Administrative Cooperation), the product specific rules may be fulfilled by operations in different factories, provided the working or processing takes place within the territory of a Party and, taken together, fulfils the requirements of Annex I (Rules of Origin and Administrative Cooperation).
3. A product specific rule of origin set out in this Appendix represents the minimum amount of working or processing required to be carried out on nonoriginating materials for the resulting product to achieve originating status. A greater amount of working or processing than that required by the rule for that product shall also confer originating status.
4. If a product specific rule in the list specifies that a product may be manufactured from more than one material, any one or more materials may be used. It does not require that all be used.
5. If a product specific rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials in addition.
6. If a product specific rule excludes materials classified in certain chapters, headings, or sub-headings of the Harmonized System, those materials must be originating for the products to qualify as originating.
7. If a product, which has acquired originating status by fulfilling the conditions set out in the list, is further processed and used as material in the manufacture of another product, the product specific rule applicable to the final product does not apply to the material. No account shall be taken of the non-originating components of that material.
8. Where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading, even materials of the same description and heading as the product, may be used, subject, however, to any specific limitations which may also be contained in the rule.
9. The products mentioned in the list are not all covered by the Agreement. Other part of the Agreement, e.g. exclusion lists and dismantling lists, must be taken into account in order to come to the conclusion whether preferential access may be granted to a final product imported from a Party.
10. A product falling within Chapter 30 of the HS obtained in a Party by using cell cultures, shall be considered as originating in that Party. "Cell culture" means the cultivation of human, animal and plant cells under controlled conditions (such as defined temperatures, growth medium, gas mixture, ph ) outside a living organism.
11. A product falling within Chapters 28 to 40 of the HS obtained in a Party by fermentation shall be considered as originating in that Party. "Fermentation" means a biotechnological process in which human, animal, plant cells, bacteria, yeasts, fungi or enzymes are used to produce a product falling within Chapters 28 to 40 of the HS.

## REFERRED TO IN ARTICLE 2.2

## SCHEDULE ON TARIFF COMMITMENTS ON GOODS

## COMMITMENTS OF NORWAY AND ON GOODS ORIGINATING IN INDONESIA

The following terms and conditions shall apply to the tariff commitments granted by Norway to Indonesia in accordance with this Annex:
(a) Norway shall apply the import duties as set out in column 4 a or 4 b .
(b) For originating products categorized as "PAP" (Processed Agricultural Products) in column 3, the following provisions shall apply:
(i) in order to take into account the differences in the cost of the agricultural raw materials incorporated into the products identified as "PAP", the Agreement does not preclude the levying, upon import, of a duty;
(ii) duties levied upon import, shall be based on, but not exceed, the difference between the domestic price and the world market price of the agricultural raw materials incorporated into the products concerned;
(iii) subject to the provisions laid down in subparagraphs (i) and (ii), Norway shall accord to goods originating in Indonesia categorized as "PAP", the same concessions as those given to the European Union (EU) as of 1 January 2017. If the concessions for these goods are changed in the agreement between Norway and the EU (Protocol 3 to the Agreement on the European Economic Area), Indonesia will simultaneously be accorded the same concessions; and
(iv) Norway shall publish the applicable import duties for processed agricultural products on the website of the EFTA Secretariat in the English language.
(c) Norway shall, based on an end-use criteria, accord duty-free market access to fish feed and raw materials for making fish-feed originating in Indonesia.

## ATTACHMENT I

## NOTES TO MARITIME TRANSPORT

1. "Reasonable and non-discriminatory terms and conditions" means, for the purpose of multimodal transport operations, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date. "Multimodal transport operator" means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.
2. "Cabotage" is defined as maritime transport of goods and passengers between ports in Iceland.
3. "Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of the other Members to undertake locally all activities, which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:
(a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
(b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated service;
(c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
(d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of the annex on telecommunications);
(e) the setting of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
(f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
4. "Maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organized independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo;
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

5. "Customs clearance services" (alternatively "customs house brokers' services") means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.
6. "Container station and depot services" means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing, and making them available for shipments.
7. "Maritime agency services" means the activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines of shipping companies, for the following purposes:

- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies; acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- acting on behalf of the companies organising the call of the ship or taking over cargoes when required.

8. "Freight forwarding services" means the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.
9. "Other supporting and auxiliary transport services" means freight brokerage services; bill auditing and freight rate information services; transportation document preparation services; packing and crating and unpacking and de-crating services; freight inspection, weighing and sampling services; and freight receiving and acceptance services (including local pick-up and delivery).

## ATTACHMENT I

## NOTES TO MARITIME TRANSPORT

1. "Reasonable and non-discriminatory terms and conditions" means, for the purpose of multimodal transport operations, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date. "Multimodal transport operator" means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.
2. "Domestic transport" means maritime transport of goods and passengers between ports in Norway, including locations on the continental shelf where petroleum is explored or produced.
3. "Other forms of commercial presence for the supply of international maritime transport services" mean the ability for international maritime transport service suppliers of the other members to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:
(a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
(b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated service;
(d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of Annex XIII (Telecommunication Services));
(e) the setting of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
4. "Maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organized independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo; and
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

5. "Customs clearance services" (alternatively "customs house brokers' services") means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.
6. "Container station and depot services" means activities consisting in storing containers, whether in a port area or inland, with a view to their stuffing/stripping, repairing, and making them available for shipments.
7. "Maritime agency services" means the activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies; acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- acting on behalf of the companies organizing the call of the ship or taking over cargoes when required.

8. "Freight forwarding services" means the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.
9. "Other supporting and auxiliary transport services" means freight brokerage services; bill auditing and freight rate information services; transportation document preparation services; packing and crating and unpacking and de-crating services; freight inspection, weighing and sampling services; and freight receiving and acceptance services (including local pick-up and delivery).

## ANNEX XIII

REFERRED TO IN ARTICLE 3.21

TELECOMMUNICATIONS SERVICES

## ANNEX XIII

REFERRED TO IN ARTICLE 3.21
TELECOMMUNICATIONS SERVICES

## Article 1

## Scope

This Annex sets out definitions and principles on the regulatory framework for telecommunications services. For greater certainty, the scope of this Annex shall be understood in accordance with Article 3.1 (Scope and Coverage) of the Agreement. It shall not apply to measures by a Party relating to broadcasting or to cable distribution of radio or television programming.

## Article 2

## Definitions

For the purposes of this Annex:
(a) "users" means service consumers and service suppliers;
(b) "telecommunications services" means the transport of electromagnetic signals, sound, data image and any combinations thereof. The sector of telecommunications services does not cover the economic activity consisting of content provision which requires telecommunications services for its transport, such as Over-the-Top (OTT), broadcasting, video-on-demand (VOD) and pay-per-view;
(c) "essential facilities" means facilities of a public telecommunications transport network or service that:
(i) are exclusively or predominantly provided by a single or limited number of suppliers; and
(ii) cannot feasibly be economically or technically substituted in order to supply a service.
(d) "major supplier" means a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:
(i) control over essential facilities; or
(ii) use of its position in the market.

## Article 3

## Competitive Safeguards

1. Each Party shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.
2. The anti-competitive practices referred to in paragraph 1 shall include, in particular:
(a) engaging in anti-competitive cross-subsidisation;
(b) using information obtained from competitors with anti-competitive results; and
(c) not making available to other service suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to supply services.

## Article 4

## Interconnection

1. The Parties seek to broaden cooperation and to contribute to the implementation of the Agreement through enhancing Indonesia's implementation capacity with projects in areas where the expansion of their trade relation is of particular importance, inter alia:

(b) sustainable tourism: designing a comprehensive programme for sustainable tourism development in Indonesia to support it in developing a high-quality tourism industry in a sustainable manner. The overall goal of the programme is to contribute to increased sustainability in targeted destinations by improving competitiveness and sustainability of destinations, and by refining a skilled workforce through tailor-made vocational education and training (VET);
(c) quality improvement for small and medium-sized enterprises (hereinafter referred to as "SMEs") and national quality infrastructure, supporting SMEs in improving safety and quality of goods to achieve conformity with standards, technical regulations and market requirements. This should support coherence and help developing global solutions for further integrating SMEs in the global supply chain by also including EFTA expertise;
